Subject: Due COB December 30th - Please Review & Verify TASC Site Support (November 2014)

Hi everyone.

Attached is the TASC site support report for November 2014. **Project leads and/or Regional TASC coordinators need to take a look at the report and verify that the written summary is accurate for this month; your review of the is part of the monthly approval process.** TASC Coordinators, you may need to pass this report on to the project leads in your region to complete the review. Sorry for the short turnaround time but I need you to verify your sites **by COB, Tuesday, December 30th.** (I realize that some people may be out of the office for the duration of the holidays and in this case, my review of the reports will have to suffice.)

The task order(s) associated with a site is noted on the far left column of the site-specific costs pages (1 & 2), or see below for the breakdown of sites by task order:

(The list below is cumulative. As such, your site may be on the list even if it didn't receive TASC support last month. However, if your site didn't receive TASC support last month, there should not be a current cost listed on the attached report unless there are lagging costs.)

Task Order #1 Covering many of sites with on-going support, carried over from the previous TASC contract.	Task Order #2 Covering TANAs and CIP assistance only.	Task Order #3 Covering new projects and/or previous sites with a history of intermittent support needs.	Task Order #4 Covering Superfund Job Training Initiative (Superfund Support)
